

WORLD FLEX[®] BULK PALLETIZER

Busse - the original inventor of Palletizers—introduces the new WorldFLEX Palletizer. The WorldFLEX Palletizer is all-new from the ground up. It was designed for Global Markets and incorporates International Component Specifications. Some of the WorldFLEX highlights include:

- Support for Multiple or Dedicated Pallet Sizes
- Handles Multiple Dunnage Types—including Metal Top Frames
- User-Friendly Controls
- Improved Product Change Over for more production uptime
- Metric and ISO Components throughout
- Control Packages and Components can be customized to meet specific requirements

The WorldFLEX[™] is the product of over a half-century of Busse palletizing experience. The WorldFLEX continues the Busse/SJI tradition of durable, reliable equipment that performs to the highest standards in the industry.

WORLD FLEX[®] BULK PALLETIZER
