

# NEXTGEN<sup>®</sup> WASHDOWN CONVEYOR

The NeXtgen patented wash down design continues the Arrowhead Conveyor tradition of high quality, user-friendly and reliable equipment. This conveyor is ideal for any processing line where food safety is the primary concern.

One of the most significant benefits of the NeXtgen wash down conveyor system is its truly modular construction. Easily reconfigure the conveyor's elements to meet your challenging production line changes. If easy clean-up, improved product safety and retaining your investment are important to you, then the choice is easy – NeXtgen.

## FEATURES AND BENEFITS

- 100% visibility of all product contact zones
- Patent open frame design
- Minimized horizontal surfaces
- All stainless steel construction
- Table top chain
- Fully welded “liquid tight”
- Faster, easier and more effective cleaning
- Reduce labor costs
- Reduce chemical usage
- Reduce water consumption and waste water generation
- Reduce down time and maintenance costs
